

# **Petrol Sniffing & Other Solvents**

**and now**

## **the Video**

ADAC's highly successful Petrol Sniffing and Other Solvents Manual now has a useful companion - a video of the workshop which ADAC developed to introduce the manual.

The workshop has been requested by communities all over Australia and, as we were unable to meet the demand, we decided to make this video.

The video shows the workshop presenter and participants discussing the issues and viewing the series of overheads, many of which are taken from the manual. The workshop is aimed at health workers, teachers, parents and community leaders. It is **not** an education aide to be used with young children.

The workshop video lasts about 50 minutes and is full of information for workers. It can be used as a discussion starter or as a trigger for community workers to explore their own communities' responses to the use of solvents.

The video can be ordered from ADAC by contacting:-

Carrolyn Lowe  
Aboriginal Drug and Alcohol Council (SA) Inc.  
53 King William Street  
Kent Town SA 5067
